

Meeting in the catchment to Odense Fjord

No signatures but pictures from the meeting in 2 ID 15 at 16. June 2020.

Meeting between Velas, Odense Municipality and SEGES. (Assens municipality canceled the meeting). The agenda was to look together at several places for environmental measures in the 2 ID 15 catchments.

Place 1. Establishment of constructed wetland with pump at this place in 2020/2021

Place 2. Potential place for a constructed wetland in an open deep artificial constructed ditch.

The new upcoming wetland project in the case area

How it look like right now before construction

Place 3. Potential place for a sedimentation pond

Place 4. Potential place for a constructed wetland. Aprox 200 hectare catchment to this place

Place 5. Potential place for a constructed wetland. Aprox 150 hectare catchment to this place
